Stock

Many donors choose to give Annual Fund gifts to the Symphony through appreciated stock. Stock gifts may easily be transferred to the San Diego Symphony by wire transfer, by hand delivery or by mail.

Making a gift of appreciated stock is a wise choice. Consider gifts of qualified assets – stocks, bonds, or other appreciated long-term properties – that have been held for at least one year and one day in order to deduct their full current value. One of the advantages of giving stock is the avoidance of the capital gains tax on an appreciated asset. A person who sells an asset, such as stock, that has appreciated greatly in value since the person acquired it would realize a capital gain on the amount of the appreciation. In most cases, however, a person who donates an appreciated asset to charity instead of selling the asset can take a charitable deduction for the full value of the property and also avoid any realized capital gain.

The easiest way to donate stock is to electronically transfer shares into our account at Merrill Lynch, San Diego. In addition to being convenient, market fluctuations are minimized by the speed of the transfer, allowing you to maximize your gift to the San Diego Symphony.

Call your banker or financial advisor and instruct your agent to electronically transfer shares to the San Diego Symphony's Merrill Lynch account. Delivery instructions are:

Merrill Lynch
Attn: Lanyon-Maples Group
701 B Street, Suite 2400
San Diego, CA 92101
DTC #5198

Credit: Symphony Account # 291-04H00

Then call or write us of the donation and date of transfer. From there, the Symphony will do the rest!

Stock gifts are valued based upon their delivery to the Symphony and donors of stock receive credit for the full value of the stock upon delivery, net of any fees.

If you have any questions, please call Christine Deardorff, Director of Development, at 619.615.3902.
